Substantial Sustainability

Norway

A stretched-out country

Varied growth season

1700 km

2500 km by car

Area: 385,207 km²

Pop.: 5,328,212

Water: 5.7 %

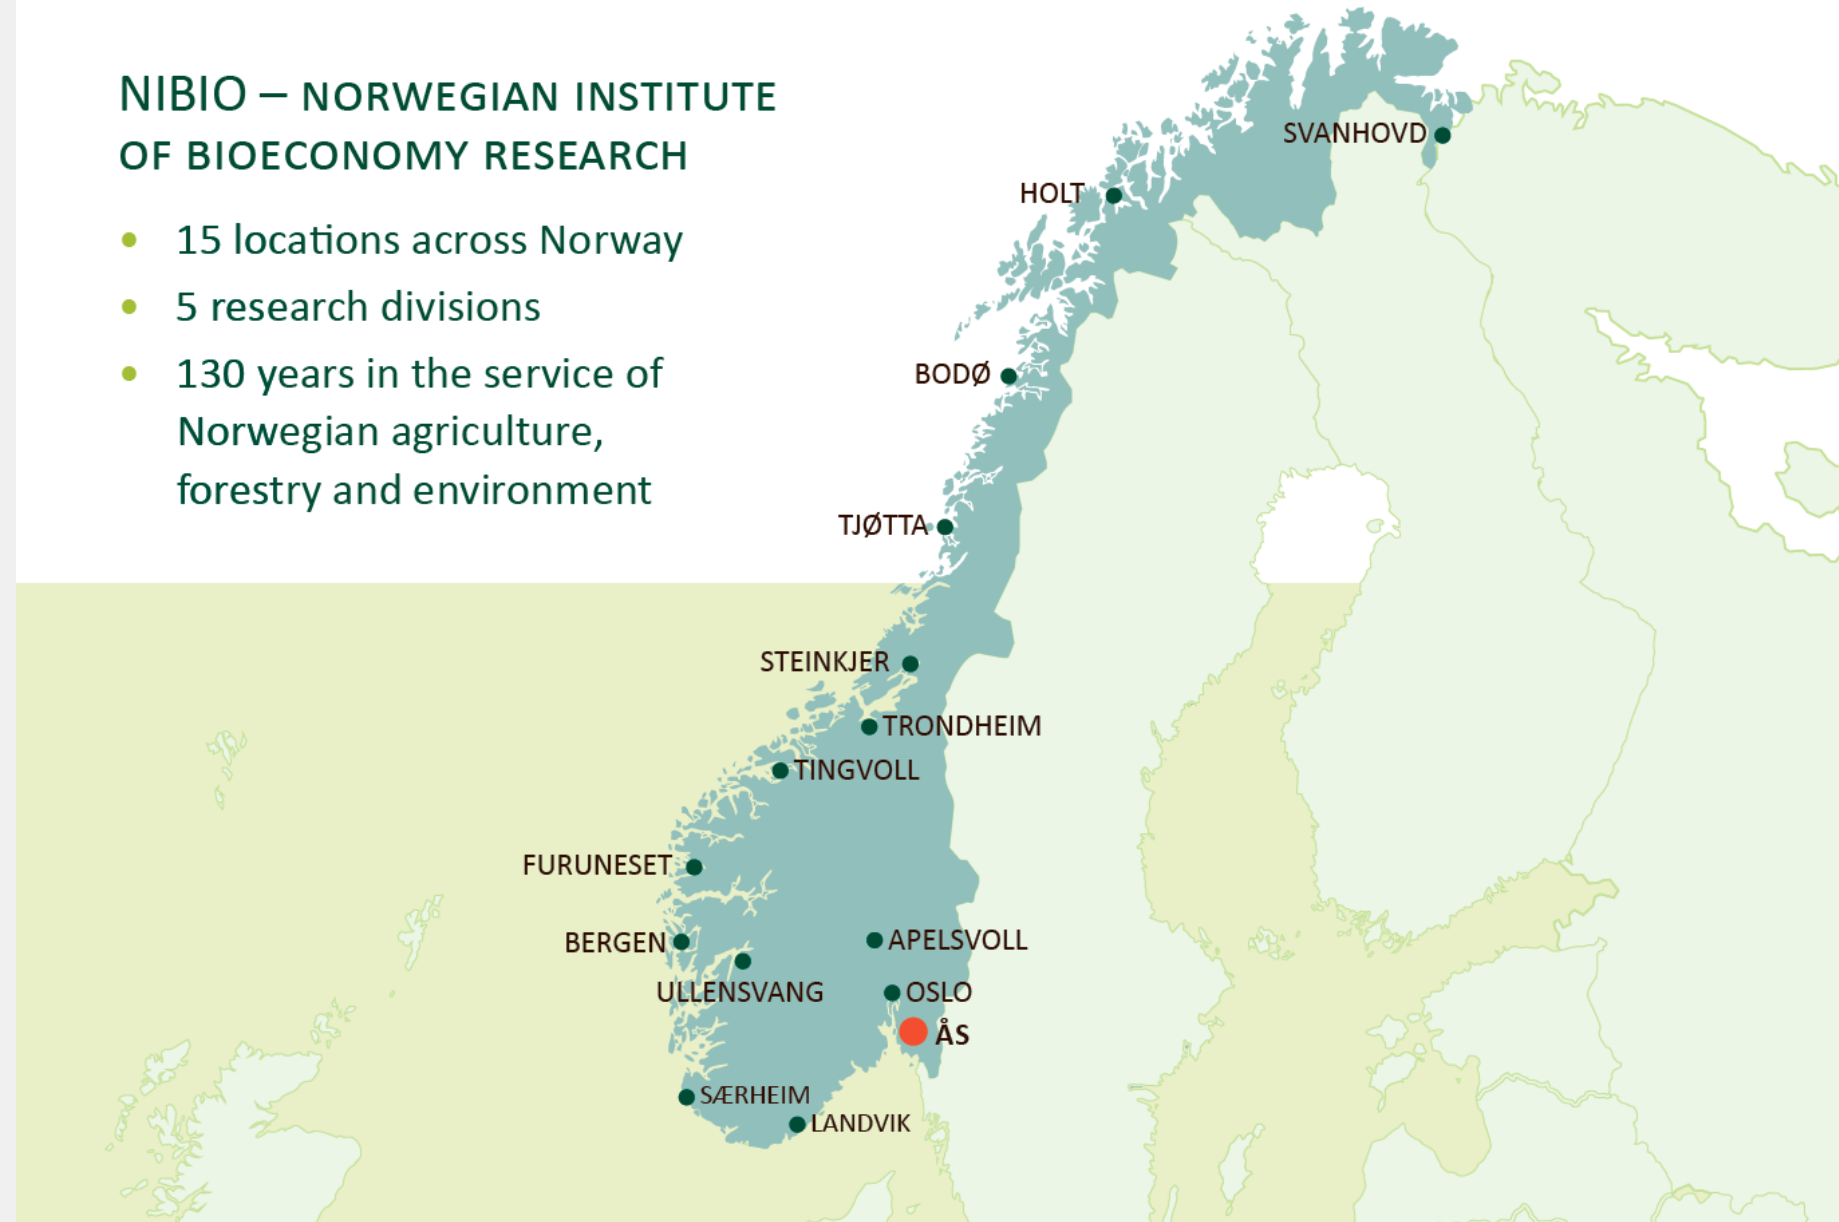

Arable: 3 %

Forest: 38 %

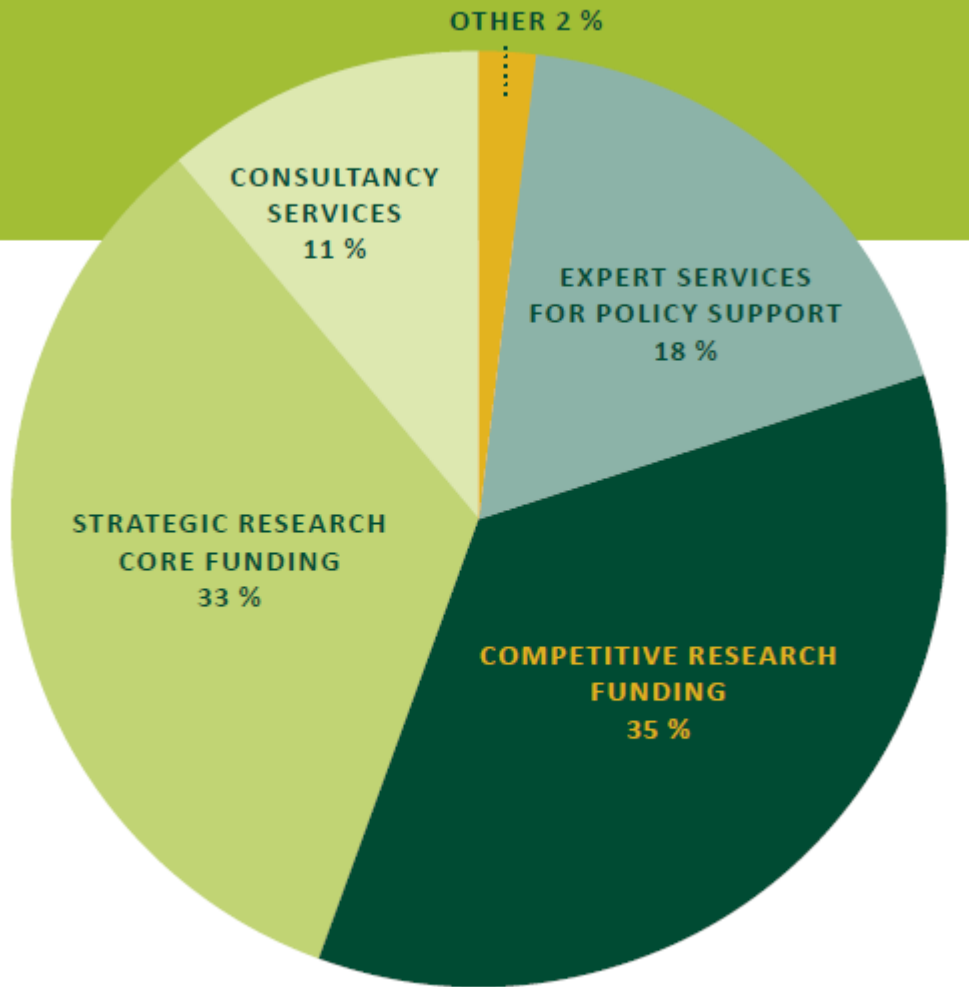

Mountains: 50 %

NIBIO – NORWEGIAN INSTITUTE OF BIOECONOMY RESEARCH

- 15 locations across Norway
- 5 research divisions
- 130 years in the service of Norwegian agriculture, forestry and environment

Facts and figures

Funding (per 31.12.2019) Total budget 2020: 75 million Euro

1 Euro = 10 NOK

- Employees from more than 35 countries
- 300 peer reviewed articles annually
- 37 500 reports in our DB
- 15 national research stations
- Independent research institute subject to the Ministry of Agriculture and food

division of

Biotechnology and Plant Health

Thematic areas:

- molecular plant biology
- pesticides and natural products chemistry
- invertebrate pests and weeds in forestry, agriculture and horticulture
- fungal plant pathology in forestry, agriculture and horticulture
- viruses, bacteria and nematodes in forestry, agriculture and horticulture
- algae production
